

# iGEM --- China Teach the Teacher Workshop

There will be three **Teach the Teachers Workshops** worldwide:

- MIT, USA - May 26
- **Tianjin University, China - June 16-17**
- ETH Zurich, Switzerland - June 27

For more details, please refer to: <http://parts.mit.edu/r/parts/igem/index.cgi>

*We welcome your participation!*

**iGEM** is the International Genetically Engineered Machine competition, that is, to facilitate the process of engineering biological devices in living cells by providing a library of standardized parts (Biobricks) to design and build genetic machines.

For more information, please check:

This April, We successfully held the **Tianjin University Synthetic Biology and iGEM workshop April 2007**.

On June 15<sup>th</sup> – 18<sup>th</sup>, 2007, we will hold the **Asian Teach the Teachers workshop**.

We will also hold an iGEM China, regional meeting on October 1<sup>st</sup>.

**Randy Rettberg, head of the Registry of Standard Biological Parts and Professor Tom Knight from MIT** will be our keynote speakers.

For more details about our workshop and the related activities, please refer to:
